Tax Elisworth Democrat publishes a creditable evening paper.

THE Junction City Union issues an evening daily. We have been under the impression that its editor was two much given to sleep to run a daily. He, at least, lives in a town which is to much given to sleep.

Dr. Sowers, a distinguished physician of Washington, predicts that President Cleveland will not live his term out, if he presists in his course of eating so voraciously, laboring so uncensingly and taking no exercise, Premier Bayard a chances are looming up, according to the worthy doctor's diagnosis.

THE president has appointed the following inter-state commerce com, missiepers: Thomas M. Cooley, of Michigan, for the term of five years; Augustus Shoonmaker, of New York, for the term of four years; Aldace F. Walker, of Vermont, for the term of three years; and Walter L. Bragg, of Alabams, for the term of two years.

CHOLERA has turned our right flank, through South America, and now threatens a rear attack by way of the Pacific coast. We have vastly more of cars on this street. to fear from this form of pentilence than from war with any foreign power, and the government should see that our coast defenses on all sides are ample for protection against this threatened invasion. Vigilance is the price of safety.

THE Governor has appointed Silas C. Robb, of Trego county, commiseinner of Forestry-an office created toy the last legislature, through the influence and work of Hon. W. S. Tilton, the able member from Trego county. No doubt Mr. Tilton, and treeless Trego (excuse the partial alliteration) will not suffer either at of the Normal. the hands of the new commissioner, wer the appropriation for the purchase of trees, seedlings, &c.

oldier, is Register of Deeds for Sedgwick-co., and the Wichita "boom" has made his office worth \$50,000 a year .- E-hange.

THE "booming" counties of this part of the state have made the register's office in each of them more profitable than any other office-state or the other by the ladies) and the stueaunty. During the last year Mr. Supple held the office in Saline coun ty it was worth \$6,000 per year. Since the "boom" has commenced there is no telling what Its value is. One cannot go amiss in the statement that it is worth \$10,000 per year. It is eurely an office worth fighting for.

The most favorable reports from the country concerning the bond election are heard. The Rock Island proposition is universally favorable. The Santa Fe proposition-though not as strong as the other-is safe. There is not the least doubt in the world of either proposition carrying next Tuesday, examinations will be by a large majority. The benefits gin Saturday. brought to our county by the Missouri Pacific have long since made it unnecemary to argue with the farmers in favor of Kailroad bonds. The "case is submitted whiteast argument," and the verdict will be without question for the bonds. We are pleased to note the favor with which both propesitions are received in the southern and most populous portions fo the county where similar propositions the city will be as strong for the propositions as they have been for the others-with the advantage of a greatly increased registration.

BOND ELE ; TION. One little mistake often turns the tide of a great battle. One false step often makes or unmakes a whole life Saliua and Saline county are in a critical period of their existance. Railroads are spreading themselves like metwork throughout the State. And though we may cry out against merciless corporations and shout "down with Mr. Davis, Jr., Sec.; and Mr. Brumonopolies," we send not conclude that we are independent of them and thus defeat ourselves and destroy our own prosperity. Take away our railreads and you take away our boom, refuse to vote the bonds for these roads | wish him success. and you reduce the price of property in Salina fifty per cent; vote for the bonds and you add from two to five deliars to the value of every acre of land in Saline county, and add fifty per cent to the value of Salina property. Look at the towns of the state and you can see at once what railroads To the Journal. and you can see at once what railroads can do. They make or unmake every city in this country. If we don't get these reads other places will secure them and the thrift they would bring us. Do not conclude they will carry us. Do not conclude they will carry anyhow, for they will not! To secure them we must vote for them. We must not only vote but work. After the best preparation for the office of all our boom, our advertising, our all our boom, our advertising, our reputation for life and growth, we do not desire to see sun-flowers grow in our streets, we do not want timber business man, watchful of the city's our streets, we do not want timber claims taken in the midst of our city by our rivals, the Abilenites or the talk (much of it foolish) about men McPhersonites, nor any other ites. who are for or against certain corporations which have vested rights in advantage they will secure us will who will neither be for or against place five dollars in our pocket, etc. Work for the bonds, vote for them and secure the perpetual growth of our thriving city and our fertile valleys. No city is Kansas has greater advantages, Salius is one of the most popular cities, if not the most popular in the state. Men all over the state and east are looking to Salinans a place to invest, and are simply awaiting the results of the election. If three the results of the election. If three class Politics in this sense has no place in city government. If such a ty to be built out in three different class septres to a municipal office let bim read in a crushing defeat the public condemnation of his course, which will read in a crushing defeat the public condemnation of his course, which will be pleased to show you the grounds. THE boom in Wichlin is becoming entirely artificial, and the artifices the boomers resort to are very fauny. A party of real estate sharks will lay out a new street, publish to the world that it is to be macadamized, and built up from one end to the other. The sharks proceed to scatter piles of stone all along the street, alleging that it is for building and macadamizing purposes, and lots sell at fabulous prices. After the lots are sold, the piles of stone are hauled away-to be used in a similar manner elsewhere. Another feature : the Wichita Eage's editor has been alluding every morning for the last six or eight months to some pork factory, canning factory or some other factory of great dimensions being on the point of locating in that city : but the sun rises each morning and does not shine on a factory of any kind. Hence the cry goes out "what are all this people going to live upon!" The boom in that city is "falling, falling, and Salina is gwine to occupy the land !"

Normal University Notes. Finals on Thursday night. New students arriving. Too busy for baseball.

The Normal will boom along with the other spring booms. Emerson elects new officers next Monday evening. "Impressions of

Big Bargains

AT THE

NEW YORK STORE

Of all kinds at your own Price.

We have just finished invoicing and after counting our Cloaks we find about 50 garments of all kinds left. We never had such a Cloak trade before, having sold over 350 of them, and we can well affo d to sell the balance at less than cost to clean them out. We have decided not to keep one over if prices will move them; we name you a price below at which everybody who has not bought a wrap can do no wiser thing than to get one now, (and we mean just what we say:)

\$7.50 Ladies Short Wraps at 4.50 6.50 12.00

All finer grades in proportion.

1-3 off on all our Ladies Newmarket.

50 Chilcren's Cloaks, former price \$4 to \$5, all at \$3.00

Ladies Jackets reduced from \$3 to \$1.75. From \$3.75 to \$2:50. From \$5.00 to \$3.00.

A lot of Misses Newmarkets, at 1.3 less than prices were before Christmas
